Roby Hartono

Backend & Cloud Developer | Java · Spring Boot · AWS · Azure

Cologne, Germany · robyhartono01@gmail.com · linkedin.com/in/roby-hartono-2b14a813a

PROFILE

Backend-focused software developer with 3+ years of professional experience building Java/Spring Boot microservices and cloud solutions on AWS and Azure for enterprise clients, including Bosch and a major German insurance company. AWS Certified Developer with an M.Sc. in Medical Informatics and four years of experience digitalizing clinical processes, bringing a strong focus on reliability, data protection and clean architecture.

TECHNICAL SKILLS

Backend	Java, Kotlin, Spring Boot, Microservices, REST APIs
Cloud	Amazon Web Services (AWS), Microsoft Azure
Frontend	Angular, TypeScript, JavaScript
Further	PHP, AI-assisted development (Anthropic Claude)
Methods	Scrum, agile software development, test automation

CERTIFICATIONS

- AWS Certified Developer – Associate (Amazon Web Services)
- Certified ScrumMaster – CSM (Scrum Alliance)
- Claude Certified Developer – Foundations (Anthropic)

PROFESSIONAL EXPERIENCE

Full-Stack Developer
06/2025 – present

TRUSTEQ GmbH, Cologne

Developing a test data management tool for a major German insurance company that automatically provides complex test data constellations for test automation.

- Build backend services and REST APIs with Java/Spring Boot, plus an Angular frontend for testers
- Automate 500–1,000 test data combinations per quarterly release that previously took 3–5 people one to three weeks to document and execute manually
- Save an estimated 50+ person-days of manual testing and test data effort per year

Full-Stack Developer
05/2023 – 06/2025

empulse GmbH, Cologne

Consulting role delivering backend and cloud solutions for clients in HR tech, telecommunications and retail (empulse GmbH became part of TRUSTEQ in 2025).

- Developed a Java microservice for absence and time tracking in the Flip employee app, used by Bosch for hundreds of employees (~1.5 years)
- Extended an AWS-based cloud platform for contract data management at OEW Breitband, implementing new features for contract file management
- Built a plugin for Takko Fashion's employee app (Speakapp) that provides staff with personal QR discount codes

Working Student – Digitalization Project
04/2020 – 03/2023

BDH-Klinik Braunfels

- Developed web applications to digitalize clinical and administrative processes in a hospital environment (JavaScript, PHP)
- Worked with sensitive healthcare data under strict data protection requirements

Intern – Software Development
04/2019 – 04/2020

BDH-Klinik Braunfels

- Supported software development in an agile Scrum team (Spring Boot)

Working Student – Full-Stack Developer
06/2020 – 09/2020

Technische Hochschule Mittelhessen, Gießen

- Contributed to PILOS, the university's open-source platform for interactive live online seminars (JavaScript, PHP)

EDUCATION

M.Sc. Medical Informatics
04/2020 – 03/2023
